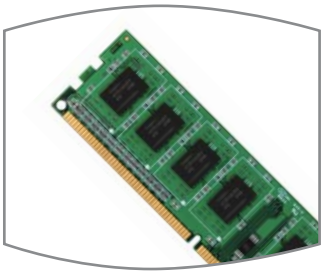
Team Elite Triple Channel (DDR3 1333/1066)

Team Group's ELITE DDR3 devices are embedded with triple-channel memory modules that can store up to 6GB (2GB*3) of memory, are faster (DDR3-1333) and offer better performance (data transfer bandwidth reaching 10,660MHz). Not only are the modules lightning quick, they consume less energy with highly efficient and are compatible with many types of mother boards and chipsets in the market. The DDR3 modules carefully selected by Team Group, use FBGA technology that enhances the modules' stability and compatibility with computer platforms.

Main Feature

- ☐ Larger capacity: 6GB Kit (2GBx3), 3GB Kit (1GBx3)
- ☐ Faster speed: DDR3-1333 and DDR3-1066
- ☐ Greater performance: Maximum computing speed up to 10,660MHz
- ☐ Energy saving: 1.5V
- ☐ Superb cooling: Heatsink with excellent cooling performance



Specification

Item	Specification
PC type	Desktop PCs
Module specification	240Pin Unbuffered DIMM Non ECC
Die layout	128*8
Capacity	6GB Kit (3x2GB), 3GB Kit (3x1GB)
Data transfer bandwidth	8,528MB/Sec (PC3 8500) / 10,664MB/Sec (PC3 10660)
CL-value	7-7-7-21 / 9-9-9-24
Working voltage	1.5V±0.075V
PCB structure	6-layer PCB
Extra features	Aluminum heat-sink (According to the actual products)
Warranty	Lifetime warranty

Ordering Information

	Team P/N	Capacity	Description
Long-DIMM	TED33072M1066HC7TC	3GB(1GB*3)	PC3-8500 DDR3 1066MHz 7-7-7-21
	TED36144M1066HC7TC	6GB(2GB*3)	PC3-8500 DDR3 1066MHz 7-7-7-21
	TED33072M1333HC9TC	3GB(1GB*3)	PC3-10600 DDR3 1333MHz 9-9-9-24
	TED36144M1333HC9TC	6GB(2GB*3)	PC3-10600 DDR3 1333MHz 9-9-9-24

LIFE TIME WARRANTY
